

SIS needs your help!

A message from a P6 student.

SIS students want to make their school a better place.

To do that we need your help!

Please read and consider the following two points.

1.

Here are some things you should try and avoid when parking in the school.

- Please **do not** park on the roundabout, because somebody might be driving round and won't expect you there. It also hinders the vision of other drivers.
- **Do not** make U turns. Even if you can't see anyone coming, you can never be sure and other drivers will not be expecting cars to do a U turn.
- Please **do not** double-park. This is viewed as out of order, selfish and dangerous. The people you park in front of are going to need to get out sooner or later and makes it difficult for other drivers to have a clear view of the road ahead.
- Please try and avoid overtaking. This is dangerous for oncoming traffic.

2.

There are different ways/routes of getting to school. Please consider them all.

By car.

The

one way is going down the busy, traffic-filled carretera. But the other way, even though it is just a tiny bit longer, is via La Reserva, which is a calm, peaceful ride. If you see someone in front of you going down the carretera, how about trying out the other route? It's a beautiful drive. If you do have to come by car is there a way you could car share?

By foot.

Please do walk if you can. It's healthier for the environment, it is a beautiful walk, and it wakes you up in the morning! The school have made the route from Soto Alto a lot safer, with paths and pedestrians. I walk everyday and I love it!

By bus.

We have many buses and routes. Our buses run from Tarifa, Marbella and around Sotogrande. They are a very simple way of students getting to school without all the fuss of parents.

Thank you very much for your attention and please help us to keep our journey to school as safe as possible.
